## Report overview

### About your report

The results in this report help your organisation build a positive workplace culture with integrity that live the public sector values.

### Report contents

The visual on the right shows you what sections we've included in this report for your organisation's survey results.

### Comparing data in this report

Your organisation took part in the survey in 2019 but not 2020.

This means you'll be able to compare about 75% of this year's survey with your previous results.

### Rounding of percentages

In this report, we round numbers up or down to their nearest whole percentage.

This means some percentages may not add up to 100%.

## Report overview

### Survey's theoretical framework

#### What this is

The framework provides an overview of the workplace factors and outcomes that the survey measures.

#### Why this is important

Based on theory and research, the framework focuses on core themes that help guide organisations in creating better workplaces.

We developed the framework in consultation with stakeholders from the public sector and Deakin University.

#### Our public sector values

The public sector values inform the professional and ethical conduct of everyone who works in the public sector.

As such, these values underpin the theoretical framework of the survey.

There's a strong link between workplace culture and how staff perceive their organisation lives the public sector values.

### The public sector values that underpin the framework and all public sector organisations

Responsiveness

Integrity

Impartiality

Accountability

Respect

Leadership

Human Rights

## Report overview

### Your comparator group

#### What this is

This is a list of similar organisations to yours.

We try to make sure they're in the same industry your organisation is in.

Some organisations may not have taken part in the survey previously. This means your comparator group may be different to previous years.

#### How we use this in your report

In this report, we compare your organisation's survey results to your comparator group's results.

This is so you can compare how your organisation is doing in your industry or to similar organisations.

We refer to your comparator group in this report as 'comparator'.

## Report overview

### Your response rate

#### What this is

This is how many staff in your organisation did the survey in 2021.

#### Why this is important

The higher the response rate, the more your results will reflect how staff feel.

If less than 100 completed the survey, consider how much one person could change your results.

For example, if only 25 people did the survey, 1 person would account for 4% of any result.

In this example, if your survey result and comparator group result or previous survey result are within 4% of each other, there is very little difference in the results.

#### How to read this

The number in the brackets ( ) shows how many staff completed the survey this year.

We've also expressed this as a percentage of all the staff who work in your organisation.

### Scorecard: employee engagement index

#### What this is

This is the psychological satisfaction staff get from their work.

The employee engagement index is a score out of 100. It is a weighting of all engagement question responses.

The weightings for each engagement response are:

- strongly agree is 100 points
- agree is 75 points
- neither agree nor disagree is 50 points
- disagree is 25 points
- strongly disagree is 0 points

#### Why this is important

High engagement may lead to greater satisfaction and lower absences, turnover and workplace stress.

Scorecard: satisfaction, stress, intention to stay

### What this is

This scorecard provides overall results for satisfaction, high to severe work-related stress, and intention to stay.

There are more people outcomes scorecards throughout this report.

### Why this is important

This page shows which outcomes are performing well and which outcomes you can look to improve.

### How to read this

Each label represents a group of questions in the survey about people outcomes.

Each result is the overall percentage of positive responses for your organisation, comparator and public sector.

### Example

In 2021:

- 69% of your staff who did the survey responded positively to questions about Intention to stay which is down from 81% in 2019.

Compared to:

- 65% of staff at your comparator and 67% of staff across the public sector.

## People outcomes

### Satisfaction question results 1 of 2

#### What this is

This is how satisfied staff are with their jobs, work-life balance and career development.

#### Why this is important

High satisfaction may lead to improved engagement, performance and lower absences and turnover.

### Work-related stress levels

#### What this is

This is the level of stress experienced by employees in response to work-related factors.

#### Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

#### How to read this

In this survey we asked staff to tell us their stress level.

The graph at the top shows how staff in your organisation rated their current levels of work-related stress.

The numbers below show the percentage of staff in your organisation who said they experienced high to severe stress in 2021 compared to 2019 and your comparator.

#### Example

24% of your staff who did the survey said they had high to severe stress in 2021. This is compared to 21% of staff in your comparator group and 26% of staff across the public sector.

### Work-related stress causes

#### What this is

This is the main work-related causes of stress reported by staff.

#### Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

#### How to read this

In the survey, we ask staff to tell us if they have experienced mild to severe stress at work, as shown in the visual above the table.

If they answer yes, we ask them to tell us what caused the stress. They can select more than one cause.

In descending order, the table shows the top 10 causes.

#### Example

88% of your staff who did the survey said they experienced mild to severe stress.

Of that 88%, 62% said the top reason was 'Workload'.

Of those that experienced work related stress it was from ...	You 2021	Comparator 2021	Public sector 2021

## People outcomes

### Intention to stay

#### What this is

This is what your staff intend to do with their careers in the near future.

#### Why this is important

In the public sector, we want to attract, keep, motivate and engage staff.

#### How to read this

In the survey, we ask staff to tell us if they intend to leave their organisation, leave the sector or stay.

If they say they intend to leave, we ask them to tell us why they want to. They can select more than one reason.

In descending order, the table shows the top 10 reasons for leaving.

The bar in the top right may not add up to 100% as it doesn't include people who intend to retire, or those who answered 'don't know'.

#### Example

13% of your staff who did the survey said they intended to leave.

Of that 13%, 41% said it was from 'Limited recognition for doing a good job'.

What is your likely career plan for the next 2 years?

#### Of those who indicated they're leaving your organisation (including leaving the sector) it was for ...

### Scorecard: emotional effects of work

#### What this is

This is the level of positive and negative feelings experienced by staff in the 3 months before the survey.

#### Why this is important

Positive feelings can lead to higher wellbeing and job satisfaction and a lower chance of burnout.

#### How to read this

Each label represents a question in the survey about emotional effects of work.

Each result is the percentage of staff who said they often, very often or always felt happy, enthusiastic, worried or miserable in the past 3 months.

You can compare these with your comparator and the public sector.

#### Example

In 2021:

- 52% of your staff who did the survey said work made them feel happy in 2021, which is down from 74% in 2019

## People outcomes

### Scorecard: negative behaviours

#### What this is

This is how many staff have experienced negative behaviours at work in the past 12 months.

#### Why this is important

Negative behaviours can be detrimental to health and wellbeing as well as performance and behaviour.

#### How to read this

Each label represents a question in the survey about negative behaviour.

Each result is the percentage of staff who said they experienced bullying, sexual harassment, discrimination or violence and aggression in the past 12 months.

You can compare these with your comparator and the public sector.

#### Example

In 2021:

- 22% of your staff who did the survey stated they experienced 'Violence or aggression' in the last 12 months which is up from 15% in 2019.

Compared to:

- 24% of staff at your comparator and 18% of staff across the public sector.

## People outcomes

### Bullying

#### What this is

This is repeated unreasonable behaviour directed at an employee that creates a risk to their health and safety.

#### Why this is important

Bullying can have an immediate and long-term negative impact on those involved, including those who witness bullying.

#### How to read this

In the survey, we asked staff to tell us if they'd experienced bullying at work.

If they did, they could tell us with one or more answers what they experienced.

In descending order, the table shows the answers.

#### Example

21% of your staff who did the survey said they experienced bullying.

Of that 21%, 68% said the top type was 'Incivility (e.g. talking down to others, making demeaning remarks, not listening to somebody)'.

## Key differences

### Most improved

#### What this is

This is where staff feel their organisation has most improved.

#### How to read this

Use this data to see if your organisation has a developing or changing trend.

In this table, your trend is shown in the 'Increase from 2019' column.

When you use this data, focus on the increase instead of individual numbers.

This is because the increase from 2019 shows you where the most positive changes are happening in your organisation.

#### Example

On the first row 'Job enrichment', the 'You 2021' column shows 88% of your staff agreed with 'I understand how the Charter of Human Rights and Responsibilities applies to my work'.

In the 'Increase from 2019' column, you have a 4% increase, which is a positive trend.

## Survey question

## Your results

In my workplace, there is good communication about psychological safety issues that affect me

Senior leaders consider the psychological health of employees to be as important as productivity

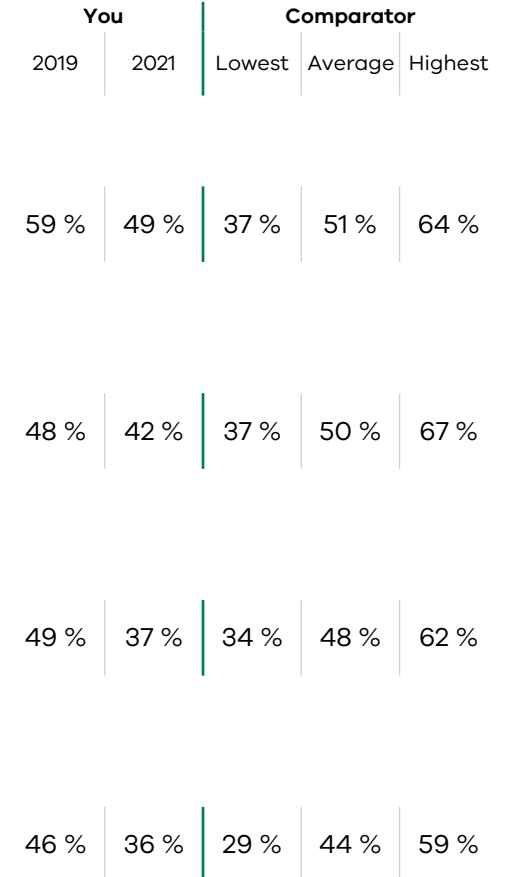

Senior leaders show support for stress prevention through involvement and commitment

All levels of my organisation are involved in the prevention of stress

## Benchmark agree results

## Organisational climate

### Psychosocial safety climate score

#### What this is

Psychosocial safety climate score reflects how well your organisation's workplace practices and processes support a climate for good psychological health.

#### How we work out your score

We work out your score from these 4 questions:

1. In my workplace, there is good communication about psychological safety issues that affect me
2. All levels of my organisation are involved in the prevention of stress
3. Senior leaders consider the psychological health of employees to be as important as productivity
4. Senior leaders show support for stress prevention through involvement and commitment

To work out your score, we rate each response and add them together

- strongly agree is 5
- agree is 4
- neither agree or disagree is 3
- disagree is 2
- strongly disagree is 1

#### How to interpret your score

Under 'Benchmark results', compare your organisation to your comparator and the highest and lowest score in your comparator group for 2021. We also show the lowest (4) and highest (20) scores possible.

A score of:

- 12 or less indicates a poor climate and a high risk of adverse outcomes
- 13 indicates a moderate climate and medium risk of adverse outcomes
- 14 or more indicates a high climate and low risk of adverse outcomes

Adverse outcomes can include:

- poor work quality
- negative acts such as bullying and harassment
- mental health problems such as depression, distress and emotional exhaustion
- sickness absence
- presenteeism (coming to work when sick)
- worker compensation
- reduced engagement
