## Report overview

### About your report

The results in this report help your organisation build a positive workplace culture with integrity that live the public sector values.

### Report contents

The visual on the right shows you what sections we've included in this report for your organisation's survey results.

### Comparing data in this report

Your organisation took part in the survey in 2020 and 2021.

This means you'll be able to compare about 78% of this year's survey with your previous results.

### Rounding of percentages

In this report, we round numbers up or down to their nearest whole percentage.

This means some percentages may not add up to 100%.

### Survey questions and definitions

## Report overview

### Survey's theoretical framework

#### What this is

The framework provides an overview of the workplace factors and outcomes that the survey measures.

#### Why this is important

Based on theory and research, the framework focuses on core themes that help guide organisations in creating better workplaces.

We developed the framework in consultation with stakeholders from the public sector and Deakin University.

#### Our public sector values

The public sector values inform the professional and ethical conduct of everyone who works in the public sector.

As such, these values underpin the theoretical framework of the survey.

There's a strong link between workplace culture and how staff perceive their organisation lives the public sector values.

### The public sector values that underpin the framework and all public sector organisations

## Report overview

### Your comparator group

#### What this is

This is a list of similar organisations to yours.

We try to make sure they're in the same industry your organisation is in.

Some organisations may not have taken part in the survey previously. This means your comparator group may be different to previous years.

#### How we use this in your report

In this report, we compare your organisation's survey results to your comparator group's results.

This is so you can compare how your organisation is doing in your industry or to similar organisations.

We refer to your comparator group in this report as 'comparator'.

## Report overview

### Your response rate

#### What this is

This is how many staff in your organisation did the survey in 2022.

#### Why this is important

The higher the response rate, the more your results will reflect how staff feel.

If less than 100 completed the survey, consider how much one person could change your results.

For example, if only 25 people did the survey, 1 person would account for 4% of any result.

In this example, if your survey result and comparator group result or previous survey result are within 4% of each other, there is very little difference in the results.

#### How to read this

The number in the brackets ( ) shows how many staff completed the survey this year.

We've also expressed this as a percentage of all the staff who work in your organisation.

## People outcomes

### Scorecard: employee engagement index

#### What this is

Engaged employees are committed to their organisation's goals and values, and motivated to contribute to organisational success.

The employee engagement index is a score out of 100. It is a weighting of all engagement question responses.

The weightings for each engagement response are:

- strongly agree is 100 points
- agree is 75 points
- neither agree nor disagree is 50 points
- disagree is 25 points
- strongly disagree is 0 points

#### Why this is important

High engagement may lead to greater satisfaction and lower absences, turnover and workplace stress.

Scorecard: satisfaction, stress, intention to stay, inclusion

### What this is

This scorecard provides overall results for satisfaction, high to severe work-related stress, intention to stay and inclusion.

There are more people outcomes scorecards throughout this report.

### Why this is important

This page shows which outcomes are performing well and which outcomes you can look to improve.

### How to read this

Each label represents a group of questions in the survey about people outcomes.

Each result is the overall percentage of positive responses for your organisation, comparator and public sector.

### Example

In 2022:

- 81% of your staff who did the survey responded positively to questions about Inclusion.

Compared to:

- 77% of staff at your comparator and 77% of staff across the public sector.

### Work-related stress levels

#### What this is

This is the level of stress experienced by employees in response to work-related factors.

#### Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

#### How to read this

In this survey we asked staff to tell us their stress level.

The graph at the top shows how staff in your organisation rated their current levels of work-related stress.

The numbers below show the percentage of staff in your organisation who said they experienced high to severe stress in 2022 compared to 2021 and your comparator.

#### Example

24% of your staff who did the survey said they had high to severe stress in 2022. This is compared to 26% of staff in your comparator group and 25% of staff across the public sector.

### Work-related stress causes

#### What this is

This is the main work-related causes of stress reported by staff.

#### Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

#### How to read this

In the survey, we ask staff to tell us if they have experienced mild to severe stress at work, as shown in the visual above the table.

If they answer yes, we ask them to tell us what caused the stress. They can select more than one cause.

In descending order, the table shows the top 10 causes.

#### Example

92% of your staff who did the survey said they experienced mild to severe stress.

Of that 92%, 54% said the top reason was 'Workload'.

### Intention to stay

#### What this is

This is what your staff intend to do with their careers in the near future.

#### Why this is important

In the public sector, we want to attract, keep, motivate and engage staff.

#### How to read this

In the survey, we ask staff to tell us how long they intend to work at their organisation.

#### Example

8% of your staff who did the survey said they intended to work for your organisation for Over 6 months and up to 1 year.

### Scorecard: emotional effects of work

#### What this is

This is the level of positive and negative feelings experienced by staff in the 3 months before the survey.

#### Why this is important

Positive feelings can lead to higher wellbeing and job satisfaction and a lower chance of burnout.

#### How to read this

Each label represents a question in the survey about emotional effects of work.

Each result is the percentage of staff who said they often, very often or always felt happy, enthusiastic, worried or miserable in the past 3 months.

You can compare these with your comparator and the public sector.

#### Example

In 2022:

- 61% of your staff who did the survey said work made them feel happy in 2022, which is up from 58% in 2021
