About your report

The results in this report help your organisation build a positive workplace culture with integrity that live the public sector values

Report contents

The visual on the right shows you what sections we've included in this report for your organisation's survey results.

Comparing data in this report

Your organisation took part in the survey in 2021 and 2022.

This means you'll be able to compare about 91% of this year's survey with your previous results.

Rounding of percentages

In this report, we round numbers up or down to their nearest whole percentage.

This means some percentages may not add up to 100%.

Survey's theoretical framework

What this is

The framework provides an overview of the workplace factors and outcomes that the survey measures.

Why this is important

Based on theory and research, the framework focuses on core themes that help guide organisations in creating better workplaces.

We developed the framework in consultation with stakeholders from the public sector and Deakin University.

Our public sector values

The public sector values inform the professional and ethical conduct of everyone who works in the public sector.

As such, these values underpin the theoretical framework of the survey.

There's a strong link between workplace culture and how staff perceive their organisation lives the public sector values.

Your response rate

What this is

This is how many staff in your organisation did the survey in 2023.

Why this is important

The higher the response rate, the more your results will reflect how staff feel.

If less than 100 completed the survey, consider how much one person could change your results.

For example, if only 25 people did the survey, 1 person would account for 4% of any result.

In this example, if your survey result and comparator group result or previous survey result are within 4% of each other, there is very little difference in the results.

How to read this

The number in the brackets () shows how many staff completed the survey this year. We've also expressed this as a percentage of all the staff who work in your organisation.

Scorecard: employee engagement index

What this is

Engaged employees are committed to their organisation's goals and values, and motivated to contribute to organisational success.

The employee engagement index is a score out of 100. It is a weighting of all engagement question responses.

The weightings for each engagement response are:

- strongly agree is 100 points
- agree is 75 points
- neither agree nor disagree is 50 points
- disagree is 25 points
- strongly disagree is 0 points

Why this is important

High engagement may lead to greater satisfaction and lower absences, turnover and workplace stress.

Work-related stress levels

What this is

This is the level of stress experienced by employees in response to work-related factors.

Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

How to read this

In this survey we asked staff to tell us their stress level.

The graph at the top shows how staff in your organisation rated their current levels of work-related stress.

The numbers below show the percentage of staff in your organisation who said they experienced high to severe stress in 2023 compared to 2022 and your comparator.

Example

Work-related stress causes

What this is

This is the main work-related causes of stress reported by staff.

Why this is important

Stress can negatively affect peoples health and wellbeing as well as their performance and behaviour.

How to read this

In the survey, we ask staff to tell us if they have experienced mild to severe stress at work, as shown in the visual above the table.

If they answer yes, we ask them to tell us what caused the stress. They can select more than one cause.

In descending order, the table shows the top 10 causes.

Most declined

What this is

This is where staff feel their organisation has most declined.

How to read this

Use this data to see if your organisation has a developing or changing trend. In this table, your trend is shown in the 'Decrease from 2022' column.

When you use this data, focus on the decrease instead of individual numbers.

This is because the decrease from 2022 shows you where the most negative changes are happening in your organisation.

Example

On the first row 'Taking action', the 'You 2023' column shows 33% of your staff agreed with 'My organisation has made improvements based on the survey results from last year'.

In the 'Decrease from 2022' column, you have a 25% decrease, which is a negative trend.

Question subgroup	Largest decline from last year		Decrease from 2022	Comparator 2023
Taking action	My organisation has made improvements based on the survey results from last year	33%	-25%	40%

Manager leadership	My manager demonstrates honesty and integrity	93%	-7%	90%

Biggest positive difference from comparator

What this is

This is where your staff have agreed more to a question compared to staff at similar organisations.

How to read this

Use this data to see where your organisation has the biggest positive difference with questions from the 2023 survey compared to your comparator group.

In this table, the difference to your comparator is shown in the 'difference' column.

Example

On the first row 'Taking action', the 'You 2023' column shows 80% of your staff agreed with 'I believe my organisation will make improvements based on the results of this survey'.

The 'difference' column, shows that agreement for this question was 24 percentage points higher in your organisation than in your comparator.

This helps organisations understand the diversity of their staff and inform workforce strategies.

How to read this

Each table shows the breakdown of responses from your survey.

The (n) column shows the number of respondents in each category.

How we protect anonymity and privacy

To protect you, we:

- de-identify all survey response data provided to your organisation
- don't release employee experience results when fewer than 10 people in a demographic group have responded to the survey
- don't release employee experience results for demographic groups where organisations have fewer than 30 responses in total.
